

TrentoCollection by **SILVELOX**

Brilliant Design. Beautiful Simplicity.

Distributed in North America exclusively through *Amarr*

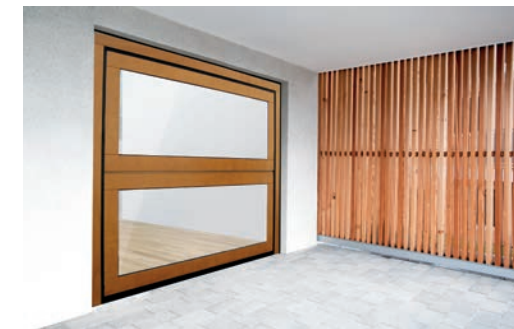

Trackless. Spring-less. Peerless.

Introducing the beauty and brilliance of the Trento Collection by Silvelox. Its unique overlap technology makes it more than a garage door. It is innovation, function and design in its purest form. No tracks. No springs. No rails. The two-section doors utilize a counterweight system along with an integrated opener for a simple, yet state-of-the-art garage door solution for your home.

Choose from an unlimited number of designs, all made of Okoume wood—from modern, European lines to carriage house elegance to custom designs for achieving a homeowner's unique vision for their home.

Italian beauty. Now in North America.

Designed and crafted in Italy by Silvelox, the Trento Collection represents the very best in design and quality in a limitless variety of styles. And now the Trento Collection is available in North America exclusively through Amarr.

Innovative Overlap Technology.

Trento Collection looks different because it is. The revolutionary and completely unique overlap design allows the door to fold neatly without tracks, springs or rails.

Minimal space. Maximum practicality.

Trento's trackless, spring-less and rail-less design takes up significantly less space than traditional garage doors, allowing you to make the most of the space you have.

Perfect fit. Perfect functionality.

With its Silvelox operator integrated neatly into the headbar, the Trento Collection's compact footprint is ideal for applications with headroom, backroom and side-room limitations, such as underground parking, open air restaurants, brownstone homes and other older or historic home styles.

Everything you need. Included.

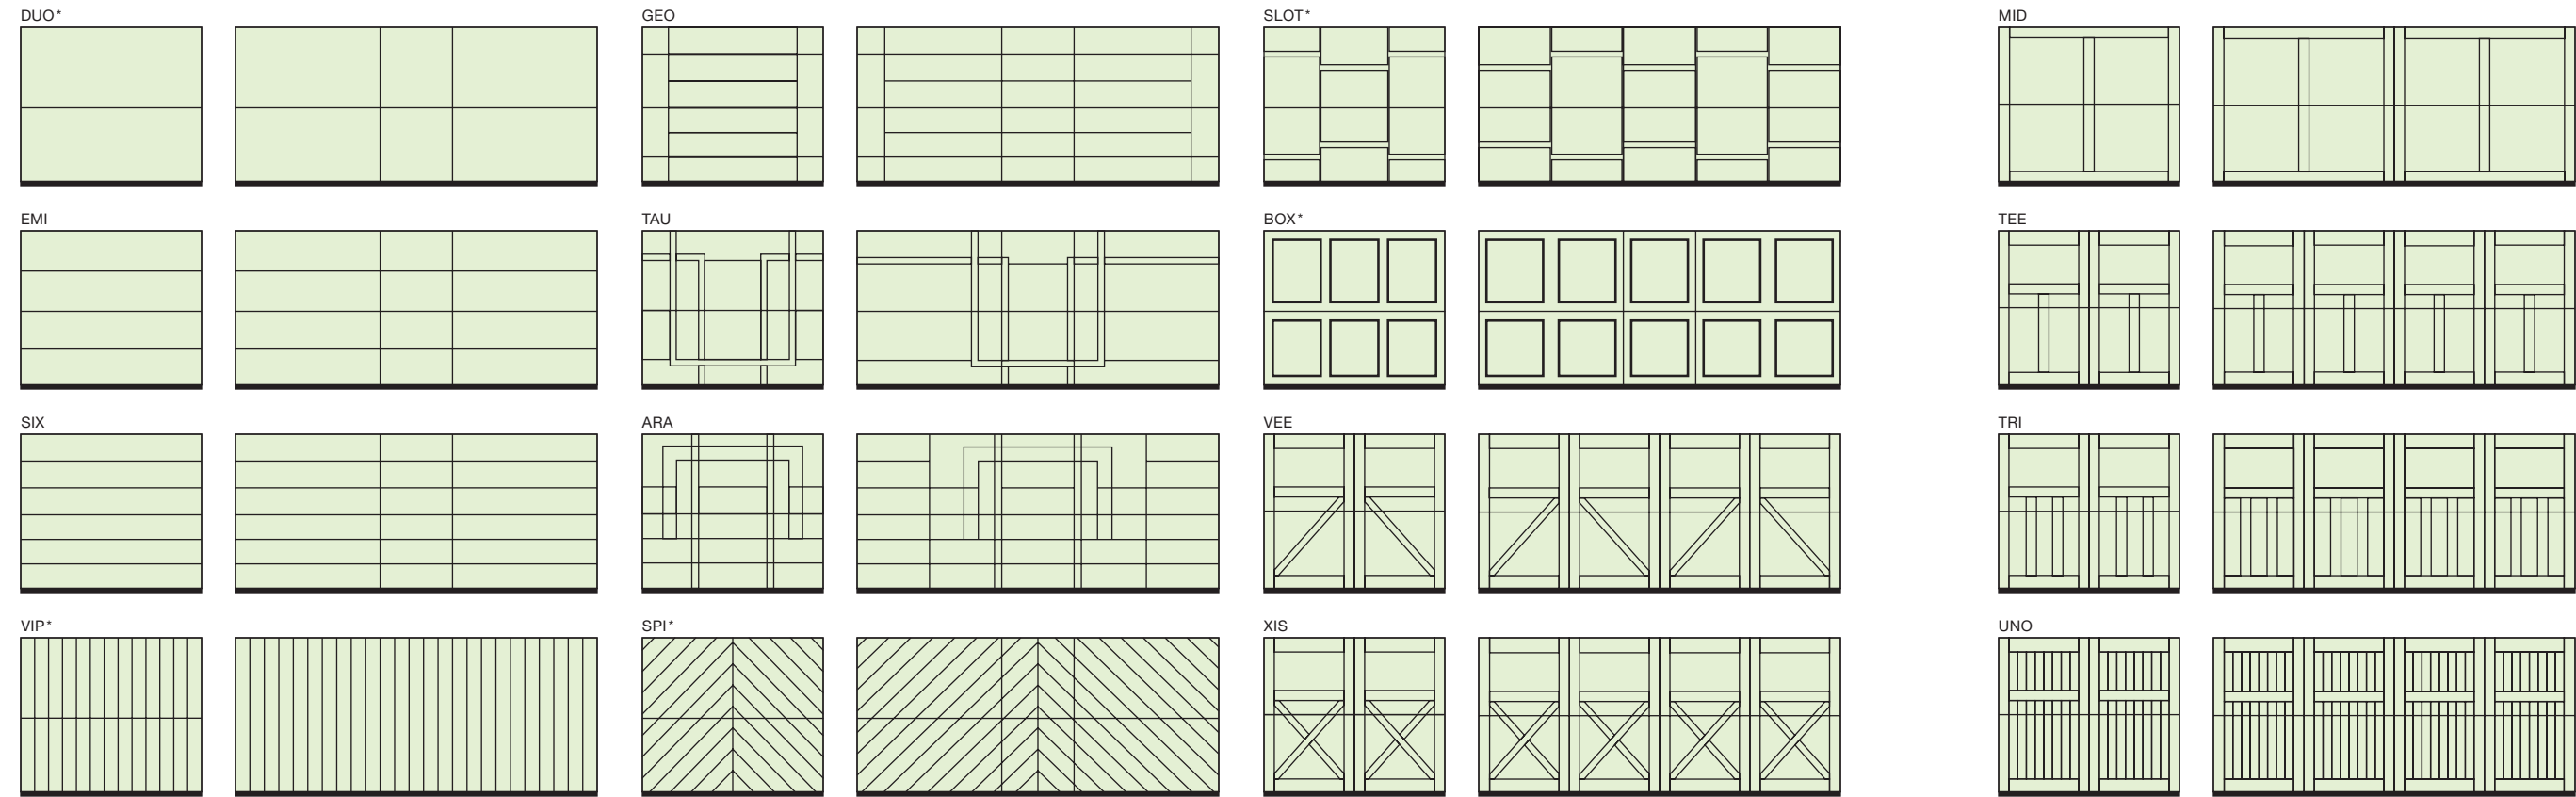

Every Trento door comes complete with LiftMaster® opener accessories: Wireless Keyless Entry, Wall Control Panel, (2) 3-Button Remote Controls, and a Universal Receiver. Now that's homeowner convenience.
